### Facts

Virginia Commonwealth University is a public research university located in Richmond, the state capital of Virginia. VCU was founded in 1838 as the medical department of Hampden-Sydney College, becoming the Medical College of Virginia in 1854. In 1968, the General Assembly merged MCV with the Richmond Professional Institute, founded in 1917, to create Virginia Commonwealth University. Today, more than 32,000 students pursue 216 degree and certificate programs through VCU's 13 schools and one college. The VCU Health System supports the university's health care education, research and patient care mission. With a record $255 million in sponsored research funding last fiscal year, VCU is designated as a research university with high research activity by the Carnegie Foundation. A broad array of university-approved centers and institutes of excellence — involving faculty from multiple disciplines in public policy, biotechnology and health care discoveries — support the university's research mission. Twenty-seven graduate and first-professional programs are ranked among the best in the country.

Virginia Commonwealth University, VCU Health System and Affiliated Foundations

- The annual economic impact of VCU in Virginia is an estimated $3.6 billion and more than 43,000 jobs.
- Each dollar of state investment in VCU can generate $19 in economic impact in Virginia.
- The total spending from VCU employees, students, campus visitors and medical center visitors has an estimated impact of $31.9 billion — more than half the economic impact of VCU in Virginia.
- Together, VCU and the VCU Health System employ almost 19,000 people, making them the largest employer in the Richmond metropolitan area and the sixth largest in the state.
- Of the almost 150,000 VCU alumni, more than 60 percent live in Virginia and 38 percent in the Richmond metropolitan area.
- VCU sponsored research awards amounted to $255 million in FY 2009-10, more than double the awards in FY 1998-99.
